Summary

SUMMARY
Focused on building **production applications, data-driven solutions, and intelligent systems**, combining software development, data analytics, and applied AI to solve practical business problems.

Experience

05/2025 – Present	Redlitmus Communications Full-Stack Developer - Developed and maintained production applications using Django, Flask, FastAPI, React, PostgreSQL, Redis, and Supabase. - Designed backend architecture for multi-tenant systems, including 13 Django applications, 94 models, and 140+ REST APIs across role-based applications. - Built real-time services, authentication, authorization, caching, and database workflows for production applications. - Integrated RAG, pgvector, LangGraph, and OpenAI into applications, including a controlled natural-language-to-SQL system. - Improved application performance from 3–9 seconds to 1–20 ms through local data mirroring and caching. - Optimized backend processing and concurrency to support approximately 300–500 requests/second.	India
09/2024 – 04/2025	Nobel Software Python Developer Intern - Developed Python and SQL applications involving backend logic, database operations, and data processing. - Worked on feature development, debugging, and SQL-based application workflows. - Supported development tasks and assisted with Python and SQL fundamentals.	India

Technical Skills

Frontend

React · Next.js · Vite · Redux
Toolkit · TanStack Query ·
Tailwind CSS · Material UI

Backend

Django · Django REST
Framework · Flask · FastAPI ·
SQLAlchemy · Celery · Socket.IO ·
REST APIs · JWT · OAuth2

AI & Data

OpenAI API · LangChain ·
LangGraph · RAG · pgvector ·
Pandas · NumPy · Power BI ·
Tableau

Databases & Infrastructure

PostgreSQL · MySQL · SQLite ·
Redis · Supabase · Neo4j · Docker
· AWS S3 · Linux · Git

Selected Projects

Valoryx Software

Valoryx — Offline-First GST Billing & Business Management Platform

React, TypeScript, Python, Flask, PostgreSQL, Supabase, SQLite, Electron

- Developed an offline-first billing platform supporting **GST invoicing, inventory, multi-branch operations, business reporting, and thermal printing**.
- Designed local-to-cloud data workflows using **SQLite and PostgreSQL/Supabase** to maintain business continuity during network interruptions.
- Built responsive web and desktop interfaces with React, TypeScript, Tailwind CSS, and Electron, with dashboards for monitoring sales and operational performance.
- [Live Demo](#) 

Acadrinx

Multi-Tenant School Management & AI Assessment Platform

- Built a multi-tenant education platform covering **admissions, academics, attendance, fees, examinations, transport, HR/payroll, and reporting**.
- Implemented **tenant isolation, RBAC, JWT/OTP authentication, TOTP 2FA, and PostgreSQL RLS** for secure school-level data separation.
- Developed asynchronous AI workflows for **question generation, exam-blueprint creation, online assessments, and written-answer grading** using Celery/Redis.
- [Live Demo](#)

Uber Supply

Demand Gap Analysis

Python, Pandas, NumPy, Matplotlib, Seaborn, Power BI

- Analyzed ride-request, cancellation, and fulfillment patterns to identify **peak-demand periods and supply shortages**.
- Cleaned and explored trip-level data, performed time/location-based analysis, and built visualizations to identify operational bottlenecks.
- Presented findings through **Power BI reporting and business-oriented recommendations** for improving driver allocation and availability.
- [GitHub Repository](#) 

Alumni Career & Salary Analysis

SQL, Python, Pandas, EDA, Data Visualization

Used SQL and exploratory analysis to examine career paths, industry distribution, job roles, and salary progression across alumni data.

Built analytical views and visualizations to identify career and compensation patterns and translate them into interpretable insights.

Focused analysis on business questions around industry growth, career progression, and salary trends.

Education & Certifications

2023 – 2024	Post Graduate Programme, Data Analytics & Data Science Skill Lync	India
2019 – 2023	B.E. Computer Science and Engineering RVS College of Engineering and Technology	Coimbatore, India

Certifications

Python Programming  · MySQL  · Power BI  · Tableau 
 · Advanced Excel
